ASYX GROUP

2026 COMPANY PROFILE

LET'S ACHIEVE TOGETHER

MEDICAL HEALTH CARE
AND PHARMACY

Creative, Innovative and Simplified Technological Solutions.

01 CORPORATE OVERVIEW

ASYX Group Company Limited (ASYX) is a Tanzanian privately owned limited liability company, incorporated in **March 2009** under the Companies Act of Tanzania. With over **16 years of continuous operation,** ASYX has evolved into a trusted provider of **smart technologies, ICT infrastructure, cybersecurity, telematics, software solutions, and managed services.**

ASYX partners with public institutions, parastatals, regulated enterprises, and private organizations to design, deploy, operate, and support **mission-critical technology systems** that enhance efficiency, security, and service delivery.

02 COMPANY VISION, MISSION & VALUES

OUR VISION

To become the leading company in empowering African countries to realize the full potential of technology in driving sustainable economic growth.

OUR MISSION

To introduce creative, innovative, and simplified technological solutions that are tailored to Africa's environmental and infrastructural challenges.

OUR VALUES

Professionalism – Delivering services with competence, accountability, and excellence
Integrity – Acting honestly, transparently, and ethically at all times.
Innovation – Embracing creativity, continuous improvement, and practical solutions.
Teamwork – Collaborating effectively to achieve shared goals.
Compliance – Adhering to applicable laws, standards, and governance requirements

03 CORE SERVICE PILLARS

3.1 SMART TECHNOLOGIES

ASYX delivers integrated **smart technology** solutions that combine hardware, software, and analytics to optimize operations and revenue performance.

Key areas:

- ⊘ Smart Parking Systems (design, installation, operation, and revenue management)
- ⊘ Smart mobility and access control solutions
- ⊘ IoT-enabled monitoring systems
- ⊘ Digital track-and-trace platforms

3.2 TELEMATICS SOLUTIONS

ASYX provides **advanced telematics and mission-critical communication solutions** for transport, utilities, and public service operations.

Capabilities include:

- ⊘ Vehicle and asset tracking (vehicles, generators, mobile assets)
- ⊘ Fleet performance and fuel monitoring
- ⊘ Push-to-Talk over Cellular (PoC / PTX) solutions
- ⊘ Mission-critical communication systems

3.3 CYBER SECURITY

ASYX Group Company Limited is a recognized Gold Partner of Sophos and a Gold Partner of Kaspersky, two globally respected leaders in cybersecurity solutions. Through these strategic partnerships, ASYX delivers enterprise-grade cybersecurity

services including :

- Endpoint protection
- Network security
- Threat detection and response
- Data protection
- Compliance solutions.

This status reflects ASYX's certified technical competence, proven implementation capacity, and commitment to international best practices in safeguarding digital infrastructure for government, enterprise, and institutional clients.

3.4 SOFTWARE SOLUTIONS

ASYX designs, customizes, and deploys **enterprise and sector-specific software solutions** to improve productivity and operational control.

Key solution areas:

- Enterprise Resource Planning (ERP)
- Customer Relationship Management (CRM)
- Operations Management Systems (OMS)
- Electronic Medical Records (EMR) and Hospital Management Systems
- Loan and Micro-Finance Management Systems
- Data analytics and reporting platforms

3.5 ICT INFRASTRUCTURE

ASYX provides end-to-end **ICT infrastructure design and implementation** for mission-critical environments.

Key services:

- ⊘ Data centers and server room setup
- ⊘ Network infrastructure (LAN, WAN, fiber, wireless)
- ⊘ Structured cabling systems
- ⊘ Clean and redundant power solutions (UPS)
- ⊘ CCTV, PABX, VPN, and VoIP systems

3.6 HARDWARE DISTRIBUTION

ASYX supplies **enterprise-grade ICT hardware** through authorized distribution and strategic partnerships with leading global manufacturers.

Scope includes:

- ⊘ Servers, networking, and security equipment
- ⊘ End-user computing devices
- ⊘ Power and data center equipment
- ⊘ ICT peripherals and accessories

Hardware supply is supported by lifecycle management and after-sales support.

3.7 TECHNICAL SUPPORT & MANAGED SERVICES

ASYX delivers **SLA-based technical support and managed services** to ensure system reliability and continuity.

Services include:

- Preventive and corrective maintenance
- Customer-specific Annual Maintenance Contracts (AMCs)
- Emergency and scheduled technical support
- System upgrades and optimization

3.8 LABOUR OUTSOURCING

ASYX provides **ELRA-compliant Labour Outsourcing and Manpower Supply services,** particularly for ICT-enabled operations.

Typical roles include:

- ICT technicians and system operators
- Smart parking attendants and cashiers
- Operational and support staff
- Call Center Management

ASYX manages recruitment, payroll, statutory compliance, and supervision under clearly defined outsourcing frameworks.

3.9 ICT TRAINING

ASYX offers **practical ICT training and capacity-building programs** for institutions and organizations.

Training areas include:

- ⊘ Network and systems administration
- ⊘ Cybersecurity awareness and operations
- ⊘ ICT operations and support
- ⊘ Smart technology systems

04 SYSTEMS INTEGRATION & PARTNERSHIPS

ASYX is an experienced **systems integrator**, supporting complex environments that combine multiple platforms and technologies.

The company works with leading technology partners and operators to ensure interoperability, scalability, and compliance.

05 | SECTOR EXPERIENCE & CLIENTS

ASYX has delivered solutions for a wide range of institutions, including:

01| **Energy & Utilities:** TANESCO, EWURA, TPDC, GASCO
02| **Transport & Aviation:** TAA, TCAA, TANROADS, LATRA, Precision Air
03| **Finance & Regulation:** BOT, TRA, NSSF, PSSSF, NHIF
04| **Government & Public Institutions:** Ministries, Agencies, Authorities, LGAs
05| **Education & Research:** UDSM, VETA, NECTA, NIMR, TOSCI

This institutional footprint demonstrates ASYX's ability to operate in **regulated and high-accountability environments.**

06 GOVERNANCE AND COMPLIANCE

ASYX operates under a strong governance framework, ensuring:

⚙ Compliance with Tanzanian labour, tax, and procurement laws

⚙ Ethical business conduct

⚙ Risk management and accountability

⚙ Secure handling of client systems and data

07 | WHY ASYX

01 16+ years of proven operational experience

02 End-to-end capability: design, build, operate, and support

03 Strong government and parastatal track record

04 Focus on reliability, security, and compliance

05 Local presence with enterprise-grade standards
